Rev. Saml. May Jr.

Dear Sir

77

While I regret that
you cannot come here to carry
out your own wise suggestions
contained in your letters of
Dec 24th + 25th, I would not
have you feel over anxious
as to our desires + intentions
here -

The great trouble
in New York is that in the
busy season we are all over-
worked. But I have been to
call on two or three other
gentlemen this morning, &
we have started a work, which
we will have signed as

we can run down the proper parties, looking round meantime for the right man to carry it around.

Give yourself, therefore, no further anxiety in the matter, but expect from us as good a report as is practicable in the cause you have so much at heart.

Yours truly
Geo. J. Noyes

P.S. - We shall follow out your suggestions where practicable.
Dec 27th I have gotten Dr. Bellows & two other names & will get one or two or three more before night.
